

PocketBook

Release Notes

PocketBook SENSE

FW Version	5.14.1049
Localization	WW

December 23, 2016

5.14.1049 comparing to 5.12.494

Implemented:

1. Support of new design of authorization web-page of *Dropbox* service.
2. Ability to register in *PocketBook Cloud* directly from *Setup Wizard*.
3. Sort by file name in "*By Folders*" grouping in *Library* app.
4. General performance enhancements.
5. Reducing the power consumption for flipping book pages.
6. Add Polish, Bulgarian, Norwegian hyphenations dictionaries for *.fb2* format.
7. Updating root ssl certificates for supporting some new web-sites.
8. Removed extra screen updates in *Library* app.
9. Wording improvements

Fixed:

1. Some *Adobe DRM* protected files can't be opened.
2. Problems with login to *PocketBook Cloud* after a long time of inactivity.
3. Inability to follow links on some websites in *Browser* app.
4. LED indicator is working after disabling it in *Settings* app and rebooting device.
5. Occasional incorrect book opening date in *Library* application while sorting "*By Date*".
6. Infrequent absences of *power-off* logo if it used a book cover as a logo.
7. Possible application halting in cases of paging back in some *DjVu*-formatted books.
