

Release Notes

PocketBook Mini

FW Version	4.4
Localization	World Wide
Developed by	Obreey Products

December, 6 2013

Implemented:

1. Improved work with footnotes (links) in EPUB, PDF documents.
2. New service «*Send-to-PocketBook*» — the ability to send books to your device using the email message with attached file(s), book(s).

Fixed:

1. Unable to assign a 'lock mode' value for the **On/Off** button after remapping the default value.
2. Incorrect battery level was displayed, if the device was off because of low power level.
