

PocketBook

Release Notes

PocketBook Ultra

FW Version	5.14
Localization	World Wide

Implemented:

1. Support of new design of web page authorization of *Dropbox* service.
2. Sort by file name when grouping 'By Folders' in *Library* application.
3. General performance was enhanced.
4. Add Polish, Bulgarian, Norwegian hyphenations dictionaries for *fb2* format.
5. Wording improvements.

Fixed:

1. Possible incorrect book opening date in *Library* application when sorting by date.
2. In some cases absence of power off logo while switching off the device, if it uses book cover as a logo.
3. Possible application halting in cases of paging back in some *DjVu* formatted books.
4. Inability to connect to WiFi networks which contain apostrophe symbol in their name or password.
5. Inability to switch from *Gallery* to *Camera* application in some cases.
6. Flipping pages prematurely when reading books using TTS service.
7. Boot logo absence when setting current page as boot logo and using screen lock before switching device off.
8. Some minor bug fixes.
